

PE and Sports Premium planned allocation of funding (2021-2022)

Grangetown Primary School recognises the vital contribution that physical education makes to a child's development, in terms of providing children with positive experiences of sport and PE to promote life-long participation. This year, sport will play a vital role – physically, mentally and socially - in helping children to continue to 'recover' from the issues caused by the covid situation over the past 2 years.

Through PE and Sports Premium funding, we aim to raise the profile of PE and sport across the school. We will provide opportunities for pupils to work with PE specialists and to have access to a range of sports. The funding will support PE training by providing opportunities for teachers to work alongside specialist teachers, and enabling teachers to attend high-quality CPD. It will also allow children across school to be involved in competitive and non-competitive sports and festivals, working alongside pupils from other schools. Different experiences for different age groups ensure all will get a range of appropriate challenges as they move through the school.

For 2021-2022, we have received £18,110 in Sports Premium funding.
