

Year 6 - Darwin's Dragons

This term, Year 6 and been reading the book Darwin's Dragons by Lindsay Galvin. They have used this story in order to inspire their own narratives and created their very own prologues for the story. They used their creative writing skills to think of their own ideas and included many of the features which we have learnt this year.

For their non-fiction piece, they created their very own dragon which they designed and labelled. They thought of its special characteristics, where it would live, what it looks like and what it eats and then created their own booklet all about their dragon.
